-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Abstract

Applicant is reminded of the proper language and format for an abstract of the disclosure.

The abstract should be in narrative form and generally limited to a single paragraph on a separate sheet within the range of 50 to 150 words. It is important that the abstract not exceed 150 words in length since the space provided for the abstract on the computer tape used by the printer is limited. The form and legal phraseology often used in patent claims, such as "means" and "said," should be avoided. The abstract should describe the disclosure sufficiently to assist readers in deciding whether there is a need for consulting the full patent text for details.

The language should be clear and concise and should not repeat information given in the title. It should avoid using phrases which can be implied, such as, "The disclosure concerns," "The disclosure defined by this invention," "The disclosure describes," etc.

Specification

The disclosure is objected to because of the following informalities:

The last paragraph in page 2 (starting on Line 21) is incomplete.

Appropriate correction is required.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 - 9 are rejected under 35 U.S.C. 102(b) as being anticipated by Ikeoka

et al. (4,607,732, 08/26/1986):

Ikeoka et al. disclose:

A drive device (148) for imparting up-and-down motion to a ram (140) in a mechanical press wherein the ram is moved up and down relative to a bed, comprising:

- (a) a drive housing (144) immovably supported over the ram;
- (b) a crankshaft (150) rotatably supported within said drive housing;
- (c) at least one pair of drive pinions (176) provided concentrically with the crankshaft (150);
- (d) a main gear (156) mounted on one end of said crankshaft (150);
- (e) at least one pair of intermediate gears (178) meshing with said pair of drive pinions (176);
- (f) intermediate pinions (158) meshing with said main gear (156);
- (g) braking means disposed on the other side of said drive housing (144) and acting on the other end of said crankshaft (150), said breaking means comprising a brake shaft (172) rotatably mounted to said crankshaft (150), gear mean (168) and pinions (170) connecting said crankshaft (150) to said brake shaft (172) and a brake (174) on said brake shaft (172).

(See Par. 4, Lines 33 – 67 and FIG. 7)
